16. BUSI97344 Derivatives - Attendance -

16.1) How often I attended class:

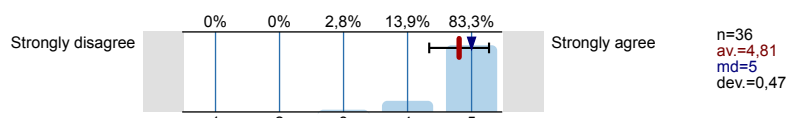

16.2) Could you please indicate how many of those classes you attended online:

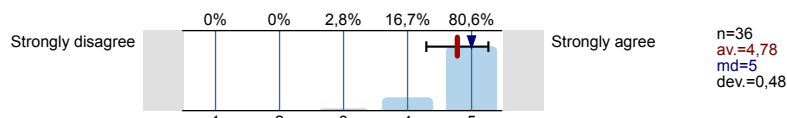

17. BUSI97344 Derivatives - Module Content -

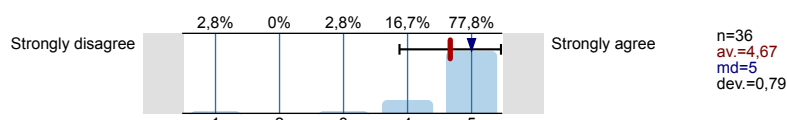

17.1) The module has clear objectives.

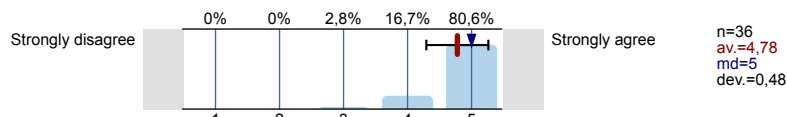

17.2) The order of the module contents made sense.

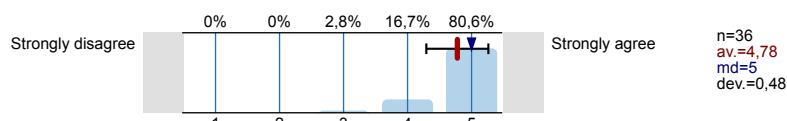

17.3) The quality of the module materials (slides, readings, exercises, case studies, videos, quizzes etc.) for this module was good.

17.4) The module components (e.g., sessions, tutorial sessions, coursework, etc.) enhanced my understanding of the topic.

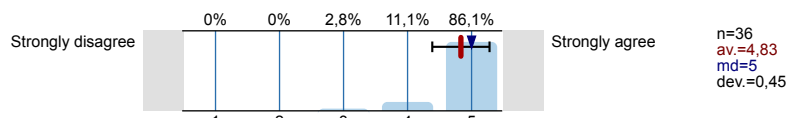

17.5) Overall, the module was effective in delivering its learning objectives.

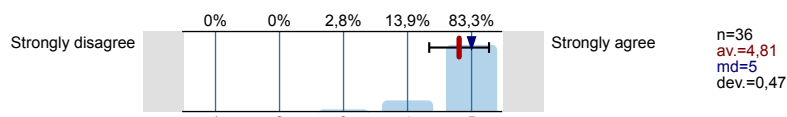

18. BUSI97344 Derivatives - Instructor - Savitar Sundaresan -

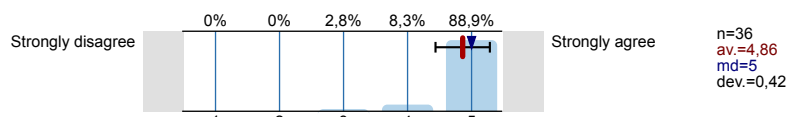

18.1) The instructor was knowledgeable about the module topics.

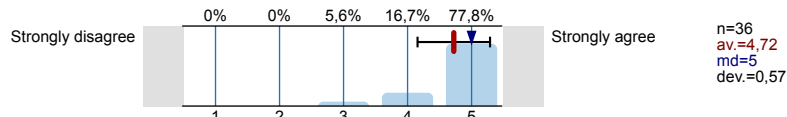

18.2) The instructor presented the module topics in an engaging manner.

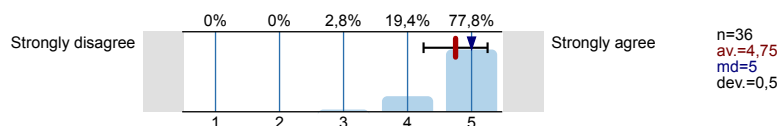

18.3) The instructor was responsive to student questions.

18.4) The instructor helped me to understand the module content clearly.

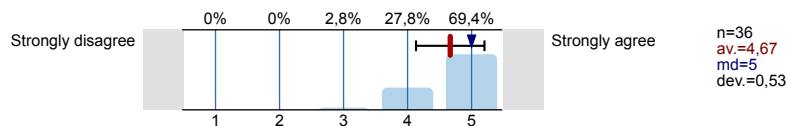

18.5) Overall, the instructor was effective.

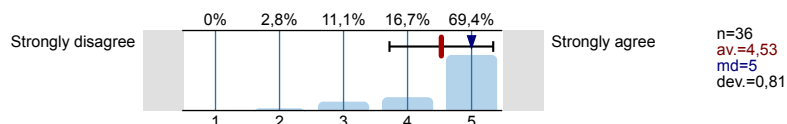

19. BUSI97344 Derivatives - Teaching Assistant - Jiarui Wang -

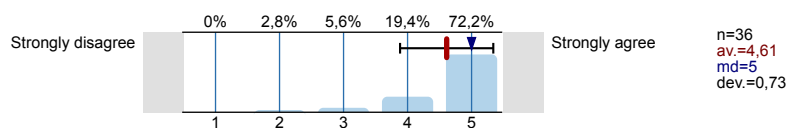

19.1) The teaching assistant was knowledgeable about the module topics.

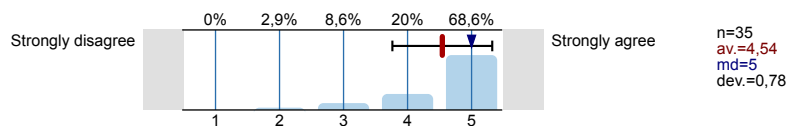

19.2) The teaching assistant presented the module topics in an engaging manner.

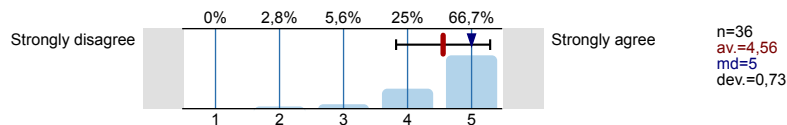

19.3) The teaching assistant was responsive to student questions.

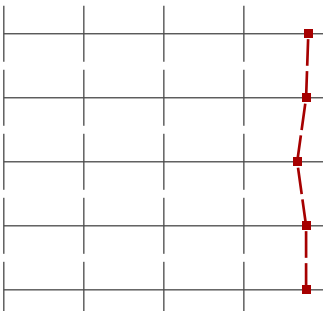

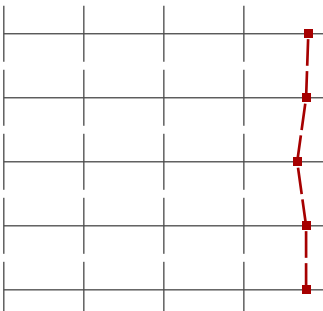

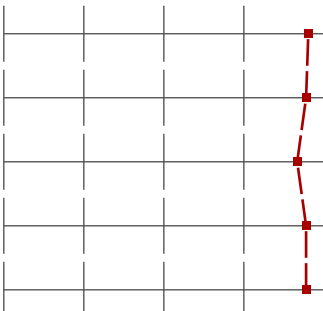

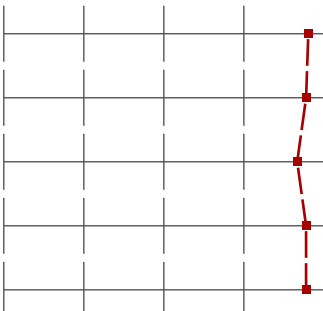

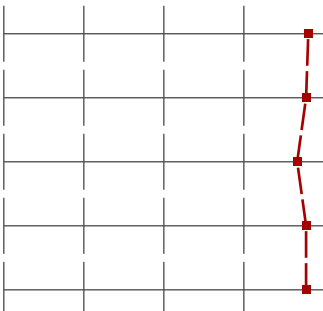

19.4) The teaching assistant helped me to understand the module content clearly.

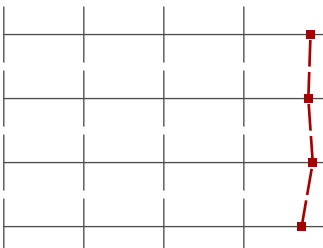

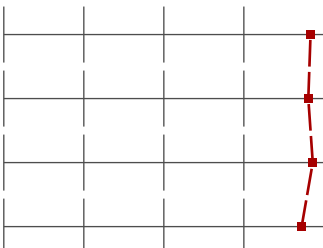

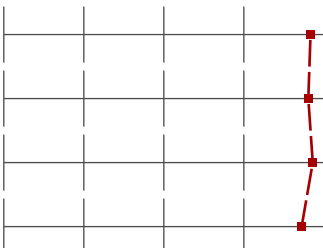

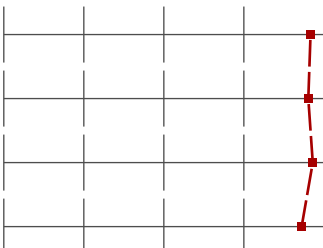

19.5) Overall, the teaching assistant was effective.

17. BUSI97344 Derivatives - Module Content -

17.1) The module has clear objectives.	Strongly disagree		Strongly agree	n=36	av.=4,81	md=5	dev.=0,47
17.2) The order of the module contents made sense.	Strongly disagree		Strongly agree	n=36	av.=4,78	md=5	dev.=0,48
17.3) The quality of the module materials (slides, readings, exercises, case studies, videos, quizzes etc.) for this module was good.	Strongly disagree		Strongly agree	n=36	av.=4,67	md=5	dev.=0,79
17.4) The module components (e.g., sessions, tutorial sessions, coursework, etc.) enhanced my understanding of the topic.	Strongly disagree		Strongly agree	n=36	av.=4,78	md=5	dev.=0,48
17.5) Overall, the module was effective in delivering its learning objectives.	Strongly disagree		Strongly agree	n=36	av.=4,78	md=5	dev.=0,48

18. BUSI97344 Derivatives - Instructor - Savitar Sundaresan -

18.1) The instructor was knowledgeable about the module topics.	Strongly disagree		Strongly agree	n=36	av.=4,83	md=5	dev.=0,45
18.2) The instructor presented the module topics in an engaging manner.	Strongly disagree		Strongly agree	n=36	av.=4,81	md=5	dev.=0,47
18.3) The instructor was responsive to student questions.	Strongly disagree		Strongly agree	n=36	av.=4,86	md=5	dev.=0,42
18.4) The instructor helped me to understand the module content clearly.	Strongly disagree		Strongly agree	n=36	av.=4,72	md=5	dev.=0,57

18.5) Overall, the instructor was effective. Strongly disagree  Strongly agree n=36 av.=4,75 md=5 dev.=0,5

19. BUSI97344 Derivatives - Teaching Assistant - Jiarui Wang -

19.1) The teaching assistant was knowledgeable about the module topics.	Strongly disagree		Strongly agree	n=36	av.=4,67	md=5	dev.=0,53
19.2) The teaching assistant presented the module topics in an engaging manner.	Strongly disagree		Strongly agree	n=36	av.=4,53	md=5	dev.=0,81
19.3) The teaching assistant was responsive to student questions.	Strongly disagree		Strongly agree	n=36	av.=4,61	md=5	dev.=0,73
19.4) The teaching assistant helped me to understand the module content clearly.	Strongly disagree		Strongly agree	n=35	av.=4,54	md=5	dev.=0,78
19.5) Overall, the teaching assistant was effective.	Strongly disagree		Strongly agree	n=36	av.=4,56	md=5	dev.=0,73

17. BUSI97344 Derivatives - Module Content -

^{17.6)} Did you find this module sufficiently challenging? Please give comments below:

- -
- It's the perfect module it's challenging but is based on real events which makes the course more interesting and all of our examples in class are based on real events which is cool
- More or less
- Yeah
- Yes (4 Counts)
- yes
- Yes, it's a bit quick.
- Yes. good topic selection
- Yes. Savitar speaks so fast that I think he is piloting a fighter jet

17.7) Did you find that this module provided the necessary tools/methodologies/intellectual development to help you advance your career or improve your job prospects? Please give comments below:

- -
- Maybe
- Very much so
- Yes (5 Counts)
- yes, especially for those who want to do derivatives
- Yes, the contents are very practical.
- Yes. The lecturer made every topic clear. I wish there were more coding assignments.
- Yes for sure.

19. BUSI97344 Derivatives - Teaching Assistant - Jiarui Wang -

19.6) Please enter any feedback on the Teaching Assistant below.

- -
- Better than the lecturer
- TA should chill a bit and refrain from scaring students unnecessarily
- The best TA ever! clear, clever, responsible, supportive, effective... GOAT, should be paid more REALLY
- The best TA in this entire university
- The TA was knowledgeable about the subject matter and effective at teaching. At certain points in the tutorials some solutions for problem sets presented by the TA were at odds with solutions market by the ML. It would be useful if the TA could check with the ML before classes to rectify the mismatch either updating typos and reuploading or fixing the answer key. It was a disruption during class to be told by the TA to check with the ML by ourselves which answer is correct.
- too fast

20. BUSI97344 Derivatives - Learning Environment and Support -

20.1) Please comment on the learning environment that impacted your experience in this module (for example: the Hub, video conferencing technology and discussion platforms if you are a student attending online. For students attending in person please also consider the lecture theatre equipment, rooms and facilities).

- -
- Good
- Nah
- Nothing to add
- The first few Monday lectures that were held in RGS lecture hall were okay, but the lecture hall is clearly not conducive to this kind of teaching environment. The tray tables were not comfortable for students, especially for those that take notes by hand. The recordings were also difficult to follow at times as the camera rarely zooms into the little white board.
- The lectures need more information on the slides. The scarcity makes revision difficult. The instructor needs to be asked to speak slower please.
- we don't have that..

21. BUSI97344 Derivatives - Overall Feedback -

21.1) What did you like most about this module?

- -
- Clear structure and delivery
- Good module

- good well structured module, good level of difficulty
- Him and _____ are the GOATS. Saviour is extremely clear, takes all the questions and answers the best way possible. He's extremely humble and will look up anything he's not sure about. Thank you for that.
- It's practical and the instructor is able to make complicated things easier.
- Lots of practical examples, really well organized and structured, professor was great
- Not bad
- Professor is super cool guy
Want to be a friend with him and drink beer on weekends
- Savitar made the material light on slides, allowing for class discussion and forcing students to engage and incentivising critical thinking on the material. Really enjoyed the no textbook approach which was replaced with multiple readings which were super interesting. Savitar always ensure students did not have questions and really made sure nobody fell behind.
- This course is really good and useful. Maybe the best course I've taken since I came here.
- Very interesting, lecturer was really good, engaging
- Where have y'all been hiding this fine man he's an amazing lecturer his class has been the most fun and interesting so far. I've even had fun working in the project more lecturers should be like him and he's so babygirl coded. Please let him teach more classes like IPM!

21.2) What would you most like to improve in this module?

- -
- Better explanation
- can make slides more readable cause when I look at the slides to review and I find I don't quite get what the slides are trying to convey.
- Have both Coursework rather than choosing one.
- Include explanations for answers for tutorial solutions, rather than give just a solution
- It has been made known that for the Derivatives exam 1/3 of the marks on the paper is attributed to an essay. However, said essay has been said to be extremely challenging for students as it is taken from an academic paper. Both ML and TA have stated that it is very difficult to score marks on this essay beyond writing some generic text. This (a) discourages students, especially those that aim high in terms of exam marks; and (b) is unacceptable as all students attempting the exam should have a fair shot of scoring all marks. Setting up the essay to be an unachievable for 99.9% of the students and thus precluding them from potentially scoring 1/3 of the marks on the paper is extremely bizarre.
- I want more mathematical stuff in derivatives
- Nothing
- We want more of Savitar! Make it longer idc
- Would have loved to have more coding assignments to enhance the understanding. The exam prep is very unclear.
